

# **SYPHILIS** IS ON THE **RISE** in Nunavut

---

Some people show symptoms.  
**Some people don't.**

Left untreated, syphilis can have  
**serious consequences.**

**Syphilis is treatable.**

**The earlier you find out,**  
the better your chances of recovery.

If you think you had unprotected sex,  
get a free, confidential STI test  
at your Community Health Centre.

Protect yourself by using condoms, free at all Health Centers.
